<b>Course- Integrated MBA/Second Year – Semester 3</b>						
<b>Branch- INTEGRATED MBA</b>						
<b>Subject Code- AMIBA0302</b>					<b>L-T-P</b> <b>3 – 1 - 0</b>	
<b>Subject Name- Financial Accounting II</b>					<b>No. of hours- 40</b>	
<b>Course Objective-</b> The objective of this course is to make students understand financial accounting theory, concepts, and practise, including final accounts, ratios, cash flow, cost of capital, capital budgeting, working capital, and operating cycle flow.						
<b>Course Outcome – At the end of the course, the students will be able to:</b>						
					<b>Bloom’s Taxonomy</b>	
CO 1	Understand the concepts, principles and rules of accounting to record routine monetary transactions. routine monetary transaction.				Understanding (K2)	
CO 2	Prepare the final accounts in accordance with Generally Accepted Accounting Principles.				Creating (K6)	
CO 3	Analyse the financial statement of companies.				Analysing (K4)	
CO 4	Understand and Analyse the intra firm and inter firm comparison.				Analysing (K4)	
CO 5	Analysing various sources of working capital finance to meet working capital requirement.				Analysing (K4)	
<b>Course Content</b>						
<b>Unit</b>	<b>Module</b>	<b>Topics Covered</b>	<b>Pedagogy</b>	<b>Lecture Required (T=L+P)</b>	<b>Aligned Practical/Assignment/Lab</b>	<b>CO Mapping</b>
<b>Unit 1 Principles of Accounting and Standards</b>	Introduction to Principles of Accounting	Overview of Accounting, Accounting concepts and Meaning, Users of Accounting, Principles of Accounting	Discussion, PPTs, videos, Case study	3 Hours	Assignment on applications of principles of accounting and accounting standards.	CO1

	Introduction to Book-keeping and Standards of Accounting	Book keeping and Accounting, Accounting terminologies, Indian Accounting Standards and International Accounting Standards	Discussion, PPTs, videos, Case study	4 Hours		
<b>Unit 2 Mechanics of Accounting</b>	Journal Entries, Ledger and Trial balance	Rules of passing journal entries, Ledger posting and Trial Balance.	Discussion, PPTs, videos, Case study	4 Hours	Assignment on checking and Balancing of Arithmetical Accuracy of Accounts.	CO2
	Final Accounts	Preparation of final accounts of manufacturing firm-Profit & Loss Account, Profit & Loss Appropriation account and Balance Sheet.	Discussion, PPTs, videos, Case study	4 Hours		
<b>Unit 3 Ratio Analysis and Cash Flow Statement</b>	Ratio Analysis	Ratio Analysis: solvency ratios, Profitability ratios, activity ratios, liquidity ratios.	Discussion, PPTs, videos, Case study	5 Hours	Practical Case Base Assignment to judge the liquidity and profitability of a company.	CO3
	Cash Flow Statement	Cash Flow Statement and Preparation of Cash Flow Statement	Discussion, PPTs, videos, Case study	4 Hours		
<b>Unit 4 Tools for Financial Analysis</b>	Comparative Statements	Comparative Income Statements, Comparative Balance sheet	Discussion, PPTs, videos, Case study	4 Hours	Practical Case Base Assignment to do the intra firm comparison of the financial statements of a company	CO4

	Common Size Statements	Common Size Income Statement, Common Size Balance Sheet, Trend Analysis	Classroom discussion, PPTs, videos, Case study	3 Hours		
<b>Unit 5 Working Capital Management</b>	Concept of working capital management	Concepts of Working Capital and its types, Determinants of Working Capital,	Classroom discussion, PPTs, videos, Case study	5 Hours	Analyse the different sources of short term capital and make a comparison of various cost of those sources.	CO5
	Methods of WCM and sources of finance.	Methods of calculating Working Capital, Working Capital Financing.	Classroom discussion, PPTs, videos, Case study	4 Hours

Course Name: MBA Integrated -Second year					
Course Code	AMIBA0301	L	T	P	Credit
Course Title	Advanced Business Statistics	4	0	0	4
Course Objective: Objective of this course is to:				Duration: 44 Hours	
1	Understand the basic concept of Advanced business statistics.				
2	Understand the importance of Time Series Analysis and their implication on Business .				
3	Understand the concept of Probability and Probability distribution and its usage in various business applications.				
4	Apply the concept of Estimation and ANOVA to practical problems.				
5	Apply the concept of Index no. for business problems.				
<b>Pre-requisites:</b> Basic knowledge of statistics.					
Course Contents / Syllabus					
<b>UNIT-I</b>					<b>8 Hours</b>
<b>Measures of Dispersion</b> - Quartile deviation, Mean Deviation and Standard deviation, Combined Standard deviation, Coefficient of variation. Moments, Skewness & Kurtosis.					
<b>UNIT-II</b>					<b>10 Hours</b>
Curve Fitting : Linear and Parabolic curve. Time series analysis: Concept, Additive and Multiplicative models, Components of time series, Trend analysis: Least Square method for Linear equations and Applications in business decision- making.					
<b>UNIT-III</b>					<b>10 Hours</b>
<b>Theory of Probability:</b> Addition and multiplication laws of probability and Bayes Theorem, Random variable, Probability Mass function, Probability Density functions, Probability distribution: Normal Distribution					
<b>UNIT-IV</b>					<b>8 Hours</b>
<b>Estimation</b> : Concept of Estimator, Properties of estimator, Testing of Hypothesis: Chi-Square test of Goodness of Fit and Independence of attributes, ANOVA and its introduction, One way ANOVA.					
<b>UNIT-V</b>					<b>8 Hours</b>

**Index Numbers:-** Meaning , Types of index numbers, uses of index numbers, Construction of Price,Quantity and Volume indices:- Fixed base and Chain base methods.

**Course outcome: At the end of course, the student will be able to:**

CO 1	Understand the basic concept of Advanced business statistics and its role descriptive analytics.	Knowledge ( K 2)
CO 2	Apply Time series analysis into business problems and their implication on Business performance.	Applying ( K 3)
CO 3	Understand the advance concepts of probability and probability theoretical distributions and its applications.	Understanding(K2) Applying ( K 3)
CO 4	Understand the application of Estimation and ANOVA in business decision making.	Understanding(K2) Applying ( K 3)
CO 5	Apply the Concept of Index numbers to solve Business Problem.	Applying ( K 3)

**Integrated MBA III Semester**

<b>Course Code</b>	<b>AMIBA0359</b>	<b>L</b>	<b>T</b>	<b>P</b>	<b>Credit</b>
<b>Course Title</b>	<b>Mini Project-1</b>	<b>0</b>	<b>0</b>	<b>2</b>	<b>2</b>

<b>Course Objective: The objective of this course is to:</b>					<b>Duration: 20 Hours</b>
1	To understand importance of social issues with the help of contemporary research				
2	To develop written and presentation skills among team members.				
3	To develop broad understanding of social and managerial issues and suggest relevant solutions.				

**Pre-requisites: As per the academic regulations**

**Guidelines**

- The students are required to develop a capstone project in the team of two under the guidance of assigned faculty member.
- The team will work collectively on a particular problem and will present his output through a presentation and viva voce.
- The team will submit the report to the College/Institute which will form part of the examination.
- The report should be based on either primary data or secondary data or both. It should reflect in-depth study of a micro problem, ordinarily chosen by them or assigned by the mentor.
- Relevant tables and references should support the data. The student should strictly follow the prescribed format for the project.
- The report should be in standard font size (12) and double spacing. Two neatly typed (one sided only) and soft bound copies of the report will be submitted to the College/Institute. The report will be typed on A-4 size paper
- The Project Report will carry 50 marks that will be divided in two parts i.e. 25 marks for internal interim project report presentation and 25 marks for external Project Presentation and Viva Voce. It will be evaluated by two examiners (one external and one internal).

**The scheme of evaluation for Interim Project Report**

Relevance of topic, objective and aim of the study (5)	Review of Literature and Problem Identification (5)	Research Methodology (10)	Data Collection (5)	<b>Total (25)</b>				
--	---	---------------------------	---------------------	-------------------	--	--	--	--

Understanding the topic, objective and aim of the study (5)	Framing review of literature and Problem Statement (5)	Research Methodology (5)	Data Analysis and Interpretation (5)	Findings and Possible solutions (5)	<b>Total (25)</b>			
<b>The scheme of evaluation for Project Presentation &amp; Viva voce</b>								
<b>Course outcome: At the end of course, the student will be able to:</b>								
CO 1	To understand any prevailing issue and finding its possible solutions.						Understand (K2)	
CO 2	To develop presentation skills and team spirit among students.						Analyze (K4)	
CO 3	To apply basic research concepts in the formulation of the project.						Apply (K3)	
<b>Content</b>

Mode of Evaluation: Presentation and Viva Voce								

<b>Course: Integrated MBA/Second Year – Semester 4</b>						
<b>Branch- INTEGRATED MBA</b>						
<b>Subject Code- AMIBA0406</b>					<b>L - T - P</b> <b>4 – 0 - 0</b>	
<b>Subject Name- Production and Operations Management</b>					<b>No. of hours- 40</b>	
<b>Course Objective-</b> This course emphasizes the concepts and practices of managing production and operations in contemporary organizations. This course provides an introduction to the field of production and operations management.						
<b>Course Outcome – At the end of the course, the students will be able to:</b>					<b>Bloom’s Taxonomy</b>	
CO1	Understanding of basic concepts of production and operations management.				Understanding (K2)	
CO2	Better understanding of modern production techniques using productivity and methods analysis.				Understanding (K2)	
CO3	Understand the basics of managing inventories in various demand settings.				Understanding (K2)	
CO4	Analyse the different manufacturing units and systems.				Analysing (K4)	
CO5	Apply the basic framework of Supply Chain Management and logistics.				Applying (K3)	
<b>Course Content:</b>						
<b>Unit</b>	<b>Module</b>	<b>Topics Covered</b>	<b>Pedagogy</b>	<b>Lecture Required (T=L+P)</b>	<b>Aligned Practical/Assignment/Lab</b>	<b>CO Mapping</b>
<b>Unit 1 Introduction to Production &amp; Operations</b>	Concept of Production & Operations Management	Concept of Production & Operations Management, Market Analysis, Competitive Priorities, and Capabilities.	Discussion, Video, Role-play	4 Hours	A company manufacturing new cars would like to identify potential market segments for its brand.	CO1
	New Product Design and Production	New Product Design and development. Plant location and Plant layout. Scheduling for Manufacturing Systems:	Discussion, videos, study	4 Hours	Suggest the research concept to identify market potential.	

	Scheduling Techniques	Production Scheduling Techniques – Sequencing.				
<b>Unit 2 Productivity</b>	Concept Productivity and Value Analysis	Productivity: Concept and Importance, Factors Affecting Productivity, Methods to Improve Productivity. Value Analysis. Work study: Methods Analysis – Various Charts, Principles of Motion Economy. Work Measurement	Discussion, videos, Story Telling	8 Hours	Prepare a product by value analysis, position in its life cycle, identify the issues likely to confront the operations manager, and his or her possible actions.	CO2
<b>Unit 3 Inventory Management &amp; Inventory Decisions</b>	Concept of Inventory Management	Inventory Management: Concept and Classification of Inventory, Purpose of Inventories	Discussion, videos, Case study	4 Hours	Case Base Discussion on EOQ, Maximum and Minimum Inventory	CO3
	Concept of Inventory Decisions	Inventory Decisions: - Inventory Control Models, Reorder level, Lead Time, and Safety Stock.	Discussion, videos, and Presentation	4 Hours		
<b>Unit 4 Manufacturing Systems</b>	Concept of Manufacturing Systems	Types of Manufacturing Systems: Intermitted & Continuous Systems etc., Product Design & Development, Plant Location & Plant Layout.	Discussion, and videos, Case-based	8 Hours	As a production manager of the any company, what factors do you consider for plant layout and product design.	CO4
<b>Unit 5 Supply Chain Management</b>	Concept & Components of Supply Chain Management	Supply Chain Management: Concept & Components of Supply Chain, Activities in Supply Chain Management, Logistics Management. Quality Issues.	Discussions, videos, Case-based	4 Hours	Assume you are running a Detergent manufacturing company. Design a supply chain network for the effective distribution of Detergents in the markets.	CO5
	Concept of Quality and Total Quality Management	Concept of Quality and Total Quality Management, Statistical Quality Control. Just in Time Manufacturing Systems.	Experiential exercise, Discussion, Case study	4 Hours

<b>Course -IMBA/Second Year – Semester 4</b>						
<b>Branch- INTEGRATED MBA</b>						
<b>Subject Code-AMIBA0404</b>					<b>L - T - P</b> <b>3 – 0 - 0</b>	
<b>Subject Name- Database Management System</b>					<b>No. of hours- 40</b>	
<b>Course Objective-</b> Understand the basic concepts and applications of database systems, design principles of relational databases which make students familiar with the basic issues of transaction processing and concurrency control.						
<b>Course Outcome - At the end of the course, the students will be able to:</b>						
CO1	Demonstrate the basic elements of a relational database management system.				Understanding (K2)	
CO2	Ability to identify the data models for relevant problems.				Understanding (K2)	
CO3	Applying design Database, ER-Diagram and Unified Modelling Language and Relational database model.				Applying (K3)	
CO4	Understand and apply Relational Algebra and Calculus.				Applying (K3)	
CO5	Understand and apply Transaction management and Concurrency control.				Applying (K3)	
<b>Course Content</b>						
<b>Unit</b>	<b>Module</b>	<b>Topics Covered</b>	<b>Pedagogy</b>	<b>Lecture Required (T=L+P)</b>	<b>Aligned Practical/Assignment/Lab</b>	<b>CO Mapping</b>
<b>Unit 1 Introduction to Databases and Transactions</b>	Introduction to Databases and Transactions	Introduction- database system, purpose of database system, view of data, relational databases, database architecture, transaction management,	Discussion, Case-based, videos	4 Hours	Application based assignment	CO1
<b>Unit 2 Data Models</b>	Basics of Data Models	Introduction of Data Models, Evolution of Data models, The importance of data models, Basic building blocks, Business rules,	Discussion, Case-based, videos	4 Hours	Application based assignment	CO2

		The evolution of data models, Degrees of data abstraction.				
<b>Unit 3 Database Design, ER Model &amp; Relation database model</b>	Database Design ,ER-Diagram and Unified Modeling Language	Database design and ER Model overview, ER-Model, Constraints, ER-Diagrams, ERD Issues, weak entity sets, Codd's rules, Relational Schemas, Introduction to UML	Discussion, Presentation, Case-based, videos	3 Hours	Application based assignment	CO3
	Relational database model:	Logical view of data, keys, integrity rules. Relational Database design: features of good relational database design, atomic domain and Normalization (1NF, 2NF, 3NF, BCNF).	Discussion, Case-based, videos	4 Hours		
<b>Unit 4 Relational Algebra and Calculus</b>	Relational Algebra	Relational algebra: introduction, Selection and projection, set operations, renaming, Joins, Division, syntax, semantics. Operators, grouping and ungrouping, relational comparison.	Discussion, Case-based, videos	2 Hours	Application based assignment	CO4
	Calculus	Calculus: Tuple relational calculus, Domain relational Calculus, calculus vs algebra, computational capabilities.	Discussion, Case-based, videos	3 Hours		
<b>Unit 5 Transaction management and Concurrency control</b>	Transaction management and Concurrency control	Transaction management: ACID properties, serializability and concurrency control, Lock based concurrency control (2PL, Deadlocks), Time stamping methods, optimistic methods, database recovery management.	Discussion, Case-based, videos	4 Hours	Application based assignment	CO5

<b>Course -IMBA/Second Year – Semester 4</b>						
<b>Branch- INTEGRATED MBA</b>						
<b>Subject Code- AMIBA0402</b>					<b>L - T – P</b> <b>4– 0 - 0</b>	
<b>Subject Name- Human Resource Management</b>					<b>No. of hours- 40</b>	
<b>Course Objective-</b> The major objective of business research is to ascertain the target customers’ requirements. This helps to conduct in-depth research relating to customers’ needs. Further, it also provides information regarding market trends, future demands of customers, and thus, the pros and cons of the product being developed for them.						
<b>Course Outcome – At the end of the course, the students will be able to:</b>					<b>Bloom’s Taxonomy</b>	
CO1	Understand the concept of human resource management in a global context.				Understanding (K2)	
CO2	Analyze and forecast the need for Human Resource Planning .				Analysing (K4)	
CO3	Understanding of various techniques of employee training and performance appraisal.				Understanding (K2)	
CO4	Understanding the compensation of employees and understand the employee performance Compensation.				Understanding (K2)	
CO5	Understand the trend and challenges of Human Resource management.				Analysing (K4)	
<b>Course Content:</b>						
<b>Unit</b>	<b>Module</b>	<b>Topics Covered</b>	<b>Pedagogy</b>	<b>Lecture Required (T=L+P)</b>	<b>Aligned Practical/Assignment/Lab</b>	<b>CO Mapping</b>
<b>Unit 1 Introduction to Human Resource Management</b>	Concept of HRM	Meaning, definition, importance, scope, and objectives of HRM	Discussion/PPT/video/ Roleplay	2 Hours	Discussion on Evolution and recent developments of HRM in India and its impact on HRM management of companies.	CO1
	Evolution and development of HRM	Evolution and development of HRM; Approaches to HRM- Personnel Management Vs Human Resource Management; HRM and competitive	Discussion, videos, study	6 Hours		

		advantage. HR department-composition, role, functions.				
<b>Unit 2 Procurement of HR</b>	HRP	Meaning and Importance of planning; Job analysis--- the process of job analysis, job description, job specification, methods of job analysis, HRP, Recruitment – concept, sources.	Discussion, videos, PPT/video/ Story Telling	4 Hours	Visit three different online job-recruiting sites. Which job site did you prefer and state the reasons of your preference.	CO2
	Recruitment and Selection	Selection – concept, Process Difference between recruitment and selection, process- test, interview, placement, induction, and socialization; retention	Discussion, videos, PPT/video	4 Hours		
<b>Unit 3 Training and Development</b>	Employee Training	Concepts; importance; Training, Methods, and Executive development methods –On the job training, Off job training,	Discussion, videos, PPT/video	4 Hours	As a Human Resource manager, you have been asked by your organization to organize a training development program. Define some steps will you take to make it successful.	CO3
	Employee Development	Management Development Programs; Employee Development Methods, Evaluating Training and Development Effectiveness		4 Hours		
<b>Unit 4 Performance Appraisal, and Compensation</b>	Performance appraisal	Performance appraisal -need and Importance, objectives, process, and methods.	Discussion, videos, PPT/video	4 Hours	Case-based Assignment on various components of compensation.	CO4
	Compensation	Compensation- Objective, Principles, classification, Components of Compensation	Discussion, videos, PPT/video	4 Hours		
<b>Unit 5 Overview of HRM Trends and Challenges</b>	Concept of SHRM, HRIS, GHRM	Strategic HRM, Electronic HRM, Green HRM, Human Resource Information System, HR Audit, workforce diversity, downsizing, work-life balance.	Discussions, videos, Case-based	8 Hours	Case-based Assignment on Workforce Diversity.	CO5

<b>Course-IMBA/Second Year – Semester 4</b>						
<b>Branch- - INTEGRATED MBA</b>						
<b>Subject Code- AMIBA0401</b>					<b>L - T - P</b> <b>4 – 0 - 0</b>	
<b>Subject Name- Business Research Methods</b>					<b>No. of hours- 40</b>	
<b>Course Objective-</b> The major objective of business research is to ascertain the target customers’ requirements. This helps to conduct in-depth research relating to customers’ needs. Further, it also provides information regarding market trends, future demands of customers, and thus, the pros and cons of the product being developed for them.						
<b>Course Outcome – At the end of the course, the students will be able to:</b>					<b>Bloom’s Taxonomy</b>	
CO1	Understand concepts & fundamentals for different types of research.				Understanding (K2)	
CO2	Create relevant research design for problem-solving.				Creating (K6)	
CO3	Apply sample collection and data collection techniques.				Applying (K3)	
CO4	Interpretation of data and apply relevant scaling techniques.				Analyzing (K4)	
CO5	Create research structure and develop reports.				Creating (K6)	
<b>Course Content:</b>						
<b>Unit</b>	<b>Module</b>	<b>Topics Covered</b>	<b>Pedagogy</b>	<b>Lecture Required (T=L+P)</b>	<b>Aligned Practical/Assignment/Lab</b>	<b>CO Mapping</b>
<b>Unit 1 Introduction to Research</b>	Concept of Research	Definition and Concept of Research, Objectives of Research, Scope of Research.	Discussion, video, Roleplay	4 Hours	A company manufacturing brand cars would like to identify potential market segments for its brand. Suggest the type of research concept to identify market potential.	CO1
	Purpose of Research	Purpose of Research Process of Research, Types of Research, and Limitations of Research.	Discussion, videos, study	4 Hours		

<b>Unit 2 Literature Review Research Design</b>	Concept and Types of Research Design	Concept of Research Design, Features of Research Design. Exploratory, Descriptive, Quasi-Experimental, Experimental Research Designs, Concept of Cause and Effect	Discussion, videos, Story Telling	4 Hours	Frame the research design for any research proposal. Also, list the steps to present the literature review of your work.	CO2
	Concept of Literature Review	Literature review - purpose and steps; searching, obtaining, and evaluating the literature, literature search through the Internet, format, and guidelines for presenting the literature review	Discussion, videos, Case study	4 Hours		
<b>Unit 3 Sampling and Data Collection</b>	Concept of Sampling	Concept of sampling, Advantages, and Limitations of Sampling, Sampling Process.	Discussion, videos, Case study	2 Hours	In a large organization, there have been an increasing number of strikes. You are required to find out the various causes of strikes: 1. Methodology and sampling procedure of collecting the data. 2. A suitable Questionnaire.	CO3
	Types of Sampling	Types of Sampling: Non-Probability Sampling Techniques, Probability Sampling Techniques, Sampling, and Non-Sampling Errors	Discussion, videos, and Presentation	3 Hours		
	Concept of Data Collection	Data Collection: Primary, Secondary Data Collection, Observation Methods, and Survey Method. Data and its types; sources of primary and secondary data, Types of Scales, Questionnaire	PPT, Smart Board, Role-play, Case Study	3 Hours		
<b>Unit 4 Interpretation of Data</b>	Interpretation of Data	Interpretation of data-Essentials, importance, and Significance of processing data	Discussion, and videos, Case-based	4 Hours	Assignment on testing of a hypothesis	CO4
	Multivariate Analysis	Univariate Analysis Multivariate analysis– concept only, Testing of hypothesis– concept and problems– i) chi-square test, ii) Z-test (for a large and small sample) iii) T-test, iv) ANOVA	Classroom discussion, Case-based	4 Hours		

<b>Unit 5 Report Writing</b>	Concept of Writing a research report	Topic selection; Research proposal – purpose, types, and structure; Writing research reports -the reporting process, the procedure for writing, and writing style	Classroom discussions, videos, Case-based	4 Hours	Prepare a research report on latest trends in marketing using secondary data as per the format prescribed.	CO5
	Concept of Citations and References	Typing and layout of the research report; Citations and references using APA format; Essentials of a good research report.	Experiential exercise, discussion, Case-based	4 Hours

<b>Course -IMBA/Second Year – Semester 4</b>						
<b>Branch- INTEGRATED MBA</b>						
<b>Subject Code AMIBA0403</b>					<b>L - T - P</b> <b>3 – 1 - 0</b>	
<b>Subject Name- Financial Management</b>					<b>No. of hours- 40</b>	
<b>Course Objective-</b> Financial Management is designed to introduce students to the financial issues involved in assessing a firm's monetary resources, the mix of these resources, the sources and uses of funds, and the benefits, risks, and costs associated with various forms of resources and financing. The course seeks to improve analytical abilities by correlating capital project appraisal tools and procedures. It assists in the development of skills in evaluating business information and applying financial theory to financial decisions.						
<b>Course Outcome – At the end of the course, the students will be able to:</b>					<b>Bloom’s Taxonomy</b>	
CO1	Understand the different basic concepts/fundamentals of Corporate Finance Knowledge.				Understanding (K2)	
CO2	Understand the various sources of finance and evaluate various capital structure of companies.				Evaluating (K5)	
CO3	Develop analytical skills to take capital budgeting decisions and leverage analysis.				Analysing (K4)	
CO4	Understand and evaluate the leverage condition of companies.				Evaluating (K5)	
CO5	Analyze the concept of Dividend and its theories.				Analysing (K4)	
<b>Course Content:</b>						
<b>Unit</b>	<b>Module</b>	<b>Topics Covered</b>	<b>Pedagogy</b>	<b>Lecture Required (T=L+P)</b>	<b>Aligned Practical/Assignment/Lab</b>	<b>CO Mapping</b>
<b>Unit 1 Introduction to Financial Management</b>	Concept of Finance	Finance & Financial Management: Meaning and Nature; Financial Goal-Profit Vs. Wealth Maximization	Classroom discussion, video, Roleplay	4 Hours	Case based Assignment	CO1
	Finance Function	Finance Functions-Investment, Financing, Liquidity, And Dividend Decisions	Classroom discussion, videos, study	4 Hours		

<b>Unit 2 Cost of Capital &amp; Capital Structure</b>	Concept of Cost of Capital	Meaning and significance of cost of capital; Calculation of cost of debt, Preference share capital, Equity share capital, and retained earnings; Combined cost of capital. Sources of finance: long-term and short-term.	Classroom discussion, videos, Story Telling	4 Hours	Make a Comparative Analyse of the capital structure any five listed companies.	CO2
	Capital structure and Determinants	Conceptual framework of capital structure and Determinants. The net income, Net operating income, Intermediary, and M.M. approaches.	Classroom discussion, videos, Case study	5 Hours		
<b>Unit 3 Capital Budgeting</b>	Concepts of investment decisions and techniques of capital budgeting	Concept of investment decisions; Investment evaluation criterion-discounted cash flow criteria, Techniques of capital budgeting-Payback, NPV, and IRR	Classroom discussion, and videos, Case-based	7 Hours	Assignment - Practical Cases on evaluation of Investment Proposals.	CO3
<b>Unit 4 Leverage</b>	Concept of Operating, Financial Leverage	Meaning and concepts of Operating, Financial Leverage, and combined leverage:	Classroom discussions, videos	3 Hours	Numerical Case for analysing financial and operating leverage condition of companies.	CO4
	Measurement of Leverage	Measurement of leverages; Financial and operating leverage, combined leverage.	Case-based	4 Hours		
<b>Unit 5 Dividend Policies</b>	Concept of Dividend	Dividend Policies: Issues in dividend decisions. Forms of dividends;	Classroom discussion	4 Hours	Assignment on effect of Dividend announcement on MV of shares	CO5
	Theories of Dividend	Theories of relevance and irrelevance of dividend.	Excel application/Videos	5 Hours

<b>Course -IMBA/Second Year – Semester 4</b>						
<b>Branch-INTEGRATED MBA</b>						
<b>Subject Code- AMIBA0405</b>					<b>L - T - P</b> <b>3- 0 - 0</b>	
<b>Subject Name- Design Thinking-I</b>					<b>No. of hours- 40</b>	
<b>Course Objective-</b> The primary aim of the course is to empower students to ideate, launch, run, and successfully complete innovation projects. The course encompasses sessions on need finding, empathy, observation, immersion, brain storming, ideation, and rapid prototyping - in the context of tackling cutting-edge technological challenges and addressing strategic industry objectives.						
<b>Course Outcome – At the end of the course, the students will be able to:</b>					<b>Bloom’s Taxonomy</b>	
CO1	Understanding the core concepts of Design Thinking.				Understanding (K2)	
CO2	Developing a strong understanding of the design process and apply it in a variety of business settings				Applying (K3)	
CO3	Analyzing culture & teamwork to work in a multidisciplinary environment and exhibit empathetic behavior				Analyzing (K4)	
CO4	Formulate specific problem statements of real time issues and generate innovative ideas using design tools.				Applying (K3)	
CO5	Apply critical thinking skills in order to arrive at the root cause from a set of likely causes				Applying (K3)	
<b>Course Content:</b>						
<b>Unit</b>	<b>Module</b>	<b>Topics Covered</b>	<b>Pedagogy</b>	<b>Lecture Required (T=L+P)</b>	<b>Aligned Practical / Assignment / Lab</b>	<b>CO Mapping</b>
<b>Unit 1: Design Thinking: Overview</b>	Introduction to design thinking	Meaning of Innovation and Creativity, Introduction to design thinking, Traditional problem solving versus Design Thinking,	Discussion , video, Roleplay	4 Hours	Case Based Assignment	CO1
	Design Mindset	Design Mindset, Design Principles, Good & Bad Designs, Examples of Great Design.		4 Hours		
<b>Unit 2: Design Thinking Process</b>	Steps of design thinking	Process of Design Thinking: Empathising, Define, ideating, Prototyping, and Testing	Discussion , videos, Story Telling	4 Hours	Case Based Assignment	CO2
	Design Approaches	Implementing the Process in driving innovations, Design Approaches across the World.		4 Hours		
<b>Unit 3:</b>	Empathy	Empathy and Empathy Tools, Problem Statement, Design mindset, Wicked problems		4 Hours		CO3

<b>Empathy &amp; Ethical Value</b>	Ethical Values	Understanding culture in family, society, institution, start-up, socialization process. Ethical behaviour.	Discussion , videos, Case study	4 Hours	Case Based Assignment	
<b>Unit 4: Problem Statement &amp; Ideation</b>	Problem Statement	Defining the problem statement, creating personas, Point of View (POV) statements. Research-identifying drivers, information gathering, target groups, samples, and feedbacks.	Discussion, and videos, Case Study	4 Hours	Case Based Assignment	CO4
	Ideation	Idea Generation, Techniques of idea generation, How Might We& 5 Whys, Metaphor & Mind map		4 Hours		
<b>Unit 5: Critical Thinking</b>	Critical Thinking	Fundamental concepts of critical thinking, the difference between critical and ordinary thinking, characteristics of critical thinkers, critical thinking skills, cognitive bias	Discussions, videos, Case Study	4 Hours	Case Based Assignment	CO5
	Logic & Argumentation	The argument, claim, and statement, identifying premises and conclusion, truth and logic conditions, valid/invalid arguments, strong/weak arguments, deductive argument, argument diagrams, logical reasoning, scientific reasoning, logical fallacies		4 Hours

<b>Integrated MBA IV Semester</b>							
<b>Course Code</b>	<b>AMIBA0459</b>			<b>L</b>	<b>T</b>	<b>P</b>	<b>Credit</b>
<b>Course Title</b>	<b>Mini Project-2</b>			<b>0</b>	<b>0</b>	<b>2</b>	<b>2</b>
<b>Course Objective: The objective of this course is to:</b>				<b>Duration: 20 Hours</b>			
1	To understand importance of social issues with the help of contemporary research						
2	To develop written and presentation skills among team members.						
3	To develop broad understanding of social and managerial issues and suggest relevant solutions.						
<b>Pre-requisites: As per the academic regulations</b>							
<b>Guidelines</b>							
<ul style="list-style-type: none"> <li>• The students are required to develop a capstone project in the team of two under the guidance of assigned faculty member.</li> <li>• The team will work collectively on a particular problem and will present his output through a presentation and viva voice.</li> <li>• The team will submit the report to the College/Institute which will form part of the examination.</li> <li>• The report should be based on either primary data or secondary data or both. It should reflect in-depth study of a micro problem, ordinarily chosen by them or assigned by the mentor.</li> <li>• Relevant tables and references should support the data. The student should strictly follow the prescribed format for the project.</li> <li>• The report should be in standard font size (12) and double spacing. Two neatly typed (one sided only) and soft bound copies of the report will be submitted to the College/Institute. The report will be typed on A-4 size paper</li> <li>• The Project Report will carry 50 marks that will be divided in two parts i.e. 25 marks for internal interim project report presentation and 25 marks for external Project Presentation and Viva Voce. It will be evaluated by two examiners (one external and one internal).</li> </ul>							
<b>The scheme of evaluation for Interim Project Report</b>							
Relevance of topic, objective and aim of the study (5)	Review of Literature and Problem Identification (5)	Research Methodology (10)	Data Collection (5)	<b>Total (25)</b>			

Understanding the topic, objective and aim of the study (5)	Framing review of literature and Problem Statement (5)	Research Methodology (5)	Data Analysis and Interpretation (5)	Findings and Possible solutions (5)	<b>Total (25)</b>
<b>The scheme of evaluation for Project Presentation &amp; Viva voce</b>					
<b>Course outcome: At the end of course, the student will be able to:</b>					
CO 1	To understand any prevailing issue and finding its possible solutions.				Understand (K2)
CO 2	To develop presentation skills and team spirit among students.				Analyze (K4)
CO 3	To apply basic research concepts in the formulation of the project.				Apply (K3)
