## **NOTICE**

### **"DataViz" Data Visualization and Analytics Competition**

All B.Tech students are invited to attend a competition, "DataViz," jointly organized by the Departments of Data Science and Computer Science, and Business Systems. The "DataViz" competition aims to provide a platform for students to apply their knowledge of data analytics and visualization in a real-world context. This competition will enable participants to showcase their analytical abilities, creativity, and teamwork while addressing complex data challenges using tools such as Excel, PowerBI, or Tableau.

#### **Here are some key details about the proposed competition:**

*Competition Name: DataViz - Data Visualization and Analytics Competition*

*Date: 1st September 2023*

*Venue: Lab 103 & Lab 104, 1st Floor, B Block NIET*

*Organizers: Departments of Data Science and Computer Science and Business Systems*

*Objective: To encourage students' practical understanding of data visualization techniques and analytics tools.*

*Format: Teams will be given datasets related to a specific domain and will be required to analyze and present their findings through compelling visualizations using tools such as Excel, PowerBI, or Tableau.*

*Benefits: Enhancing students' analytical skills, fostering teamwork, and promoting the practical application of data analysis concepts.*

**Event Organizer**

**Mr. Sovers Singh Bisht**

**Ms. Garima Jain**

**Head-DS-CSBS-AI**

**Dr. Priyanka Chandani**
